## **AMENDMENTS**

## In the Claims:

This listing of claims replaces all prior versions, and listings, of claims in the application.

- 1. (canceled).
- 2. (original) A therapeutic agent for myeloma, said agent comprising, as an active ingredient:
  - (1) interferon- $\alpha$  or interferon- $\gamma$ , and
- (2) an antibody that specifically binds to a protein having the amino acid sequence as set forth in SEQ ID NO: 2, and that has a cytotoxic activity.
- 3. (original) The therapeutic agent according to claim 2 wherein said myeloma is multiple myeloma.
- 4. (original) The therapeutic agent according to claim 2 or 3 wherein said antibody is a monoclonal antibody.
- 5. (original) The therapeutic agent according to clain 4 wherein said antibody has a cytotoxic activity.
- 6. (original) The therapeutic agent according to claim 2 wherein said antibody is a chimeric antibody or a humanized antibody.
- 7. (original) The therapeutic agent according to claim 5 wherein said antibody is anti-HM1.24 antibody.
- 8. (original) The therapeutic agent according to claim 6 wheriein said chimeric antibody or humanized antibody is chimeric anti-HM1.24 antibody or humanized anti-HM1.24 antibody.

Application No.: 10/069,290 3 Attorney Docket No.: 350292001300

9. (withdrawn) An enhancer for expression in myeloma cell of a protein (HM1.24 antigen) having the amino acid sequence as set forth in SEQ ID

10. (withdrawn) An activating agent for the HM1.24 promoter, said agent comprising IRF-2 protein as an active ingredient.

NO: 2, said enhancer comprising IRF-2 protein as an active ingeredient.

- 11. (withdrawn) A therapeutic agent for myeloma comprising, as as active ingredient:
  - (1) IRF-2 protein, and
- (2) an antibody that specifically binds to a protein having the amino acid sequence as set forth in SEQ ID NO: 2, and that has a cytotoxic activity.
- 12. (withdrawn) The therapeutic agent according to claim 11 wherein said myeloma is multiple myeloma.
- 13. (withdrawn) The therapeutic agent according to claim 11 or 12 wherein said antibody is a monoclonal antibody.
- 14. (withdrawn) The therapeutic agent according to claim 13 wherein said antibody has cytotoxic activity.
- 15. (withdrawn) The therapeutic agent according to claim 11 wherein said antibody is a chimeric antibody or a humanized antibody.
- 16. (withdrawn) The therpeutic agent according to claim 14 wherein said antibody is anti-HM1.24 antibody.
- 17. (withdrawn) The therpeutic agent according to claim 15 wherein said chimeric antibody or humanized antibody is chimeric anti-HM1.24 antibody or humanized anti-HM1.24 antibody.

18. (withdrawn)

- HM1.24 antigen, said enhancer comprising, as an active ingedient, a compound that enhances the expression of IRF-2 protein.
- 19. (withdrawn) An activating agent for the HM1.24 promoterm said agent comprising, as an active ingedient, a compound that enhances the expression of IRF-2 protein.
- 20. (withdrawn) A method of screening expression enhancers of HM1.24 antigen.
- 21. (withdrawn) A kit comprising:
- (1) an antibody that speficically binds to a protein having the amino acid sequence as set forth in SEQ ID NO: 2, and that has a cytotoxic activity; and
- (2) an instruction manual that directs the administration to the pateinet of the above antibody in combination with a pharmaceutical agent that enhances the expression of a protein having the amin acid sequence as set forth in SEQ ID NO: 2.
- 22. (withdrawn) The kit according to claim 21 wherein said myeloma is multiple myeloma.
- 23. (withdrawn) The kit according to claim 21 wherein said antibody is humanized anti-HM1.24 antibody.
- 24. (withdrawn) The kit according to claim 21 wherein said pharmaceutical agent that enhances the exptession of a protein having the amino acid sequence as set forth in SEQ ID NO: 2 is interferon-α or interferon-γ.

Application No.: 10/069,290 5 Attorney Docket No.: 350292001300

25. (withdrawn) A pharmaceutical composition for the treatment of a patient with myeloma comprising an antibody that specifically binds to a protein having the amino acd sequence as set forth in SEQ ID NO: 2 and that has a cytotoxic activity, wherein said composition is administered to the patient in combination with a pharmaceutical agent that enhances the expression of a protein having the amino acid sequence as set forth in SEQ ID NO: 2.

- 26. (withdrawn) The pharmaceutical composition according to claim 25 wherein said myeloma is is multiple myeloma.
- 27. (withdrawn) The pharmaceutical composition according to claim 25 wherein said antibody is humanized anti-HM1.24 antibody.
- 28. (withdrawn) The pharmaceutical composition according to claim 25 wherein said pharmaceutical agent that enhances the expression of a protein having the amino acid sequence as set forth in SEQ ID NO: 2 is interferon- $\alpha$  or interferon- $\gamma$ .
